

School and Community Resources 2017-18

Whether your child attends Elementary, Middle or High School, several support services exist in the school as well as in the community. We want to make certain that all parents and students of District 303 are aware of these resources.

During the regular school year, the school-based supports can be accessed through the Student Services Department at your child's school. The Department of Student Services provides a wide range of supports and resources to students and their families. The Student Services staff will provide students, parents and teachers with information, consultation and counseling services designed to help students succeed and work to reduce social and emotional barriers to learning.

The information that follows is a listing of the support services that are available to students and families in school during the regular school year.
