Low-income students come from families receiving public aid; live in institutions for neglected or delinquent children; are supported in foster homes with public funds; or are eligible to receive free or reduced-price lunches.

Limited-English-proficient students are those students eligible for transitional bilingual programs.

Mobility rate is based on the number of times students enroll in or leave a school during the school year.

Chronic truants are students who are absent from school without valid cause for 18 or more of the last 180 school days.

SCHOOL DISTRICT FINANCES

TEACHER/ADMINISTRATOR SALARIES (Full-Time Equivalents)

Salaries and counts of staff are summed across a district based on the percentage of time that each individual is employed as a teacher or an administrator and may or may not reflect the actual paid salaries for the district.

** Due to the way Illinois school districts are configured, state averages for equalized assessed valuation per pupil and total school tax rate per \$100 are not provided.
Equalized assessed valuation includes all computed property values upon which a district's local tax rate is calculated.
Total school tax rate is a district's total tax rate as it appears on local property tax bills.
Instructional expenditure per pupil includes the direct costs of teaching pupils or the interaction between teachers and pupils.
Operating expenditure per pupil includes the gross operating cost of a school district excluding summer school, adult education, bond principal retired, and capital expenditures.

ACADEMIC PERFORMANCE

ACT ASSESSMENT: GRADUATING CLASS OF 2007 *

The number and percent of students taking the ACT are no longer reported since virtually every eleventh grade student takes the ACT as part of the PSAE.

* Includes graduating students' most recent ACT Assessment scores from an ACT national test date or PSAE testing. Excludes the scores of students who took the test with special accommodations. State averages for ACT data are based on regular public schools and do not include private and special purpose schools.

PERFORMANCE ON STATE ASSESSMENTS

Federal law requires that student achievement results for reading, mathematics and science for schools providing Title I services be reported to the general public.

The Illinois Standards Achievement Test (ISAT) is administered to students in grades 3 through 8. The Prairie State Achievement Examination (PSAE) is administered to students in grade 11. The Illinois Measure of Annual Growth in English (IMAGE) is administered to limited-English-proficient students. The Illinois Alternate Assessment (IAA) is administered to students with disabilities whose Individualized Education Programs (IEPs) indicate that participation in the ISAT or PSAE would not be appropriate.

Students with disabilities have an IEP (No Child Left Behind Act). An IEP is a written plan for a child with a disability who is eligible to receive special education services under the Individuals with Disabilities Education Act.

In order to protect students' identities, test data for groups of fewer than ten students are not reported.

PRAIRIE STATE ACHIEVEMENT EXAMINATION (PSAE)

The following tables show the percentages of student scores in each of four performance levels. These levels were established with the help of Illinois educators who teach the grade levels and learning areas tested. Due to rounding, the sum of the percentages in the four performance levels may not always equal 100.

- Level 1 -- Academic Warning - Student work demonstrates limited knowledge and skills in the subject. Because of major gaps in learning, students apply knowledge and skills ineffectively.
- Level 2 -- Below Standards - Student work demonstrates basic knowledge and skills in the subject. However, because of gaps in learning, students apply knowledge and skills in limited ways.
- Level 3 -- Meets Standards - Student work demonstrates proficient knowledge and skills in the subject. Students effectively apply knowledge and skills to solve problems.
- Level 4 -- Exceeds Standards - Student work demonstrates advanced knowledge and skills in the subject. Students creatively apply knowledge and skills to solve problems and evaluate the results.

Four Conditions Are Required For Making Adequate Yearly Progress (AYP):

1. At least 95% tested in reading and mathematics for every student group. If the current year participation rate is less than 95%, this condition may be met if the average of the current and preceding year rates is at least 95%, or if the average of the current and two preceding years is at least 95%. Only actual participation rates are printed. If the participation rate printed is less than 95% and yet this school makes AYP, it means that the 95% condition was met by averaging.
2. At least 55.0% meeting/exceeding standards in reading and mathematics for every group. For any group with less than 55.0% meeting/exceeding standards, a 95% confidence interval was applied. Subgroups may meet this condition through Safe Harbor provisions. ***
3. For schools not making AYP solely because the IEP group fails to have 55.0% meeting/exceeding standards, 14% may be added to this variable in accordance with the federal 2% flexibility provision.
4. At least 90% attendance rate for non-high schools and at least 72% graduation rate for high schools.

* Includes only students enrolled as of 05/01/2006.

** Safe Harbor Targets of 55.0% or above are not printed.

*** Subgroups with fewer than 45 students are not reported. Safe Harbor only applies to subgroups of 45 or more. In order for Safe Harbor to apply, a subgroup must decrease by 10% the percentage of scores that did not meet state standards from the previous year plus meet the other indicators (attendance rate for non-high schools and graduation rate for high schools) for the subgroup. For subgroups that do not meet their Safe Harbor Targets, a 75% confidence interval is applied. Safe Harbor allows schools an alternate method to meet subgroup minimum targets on achievement.

St. Charles East High School Improvement Plan for 2007-2008

This “School Report Card” has been compiled by the Illinois State Board of Education as a means by which school districts communicate local and statewide information to the public. The *No Child Left Behind Act of 2001* (NCLB) requires states to establish annual achievement targets which are used to calculate Adequate Yearly Progress (AYP). The purpose of this “School Report Card” is to communicate the performance of this school and district on the annual targets. Although our PSAE scores increased overall in 2007, one subgroup population did not meet the math benchmark for Adequate Yearly Progress.

Continuous school improvement is targeted and focused at the high school level. St. Charles East High School is engaged in a continuous improvement process through the building and district-wide emphasis on Professional Learning Communities (PLCs). Through PLCs, teachers collaborate in course teams on our late start Wednesdays and during common planning time to focus on student learning. At East High School this educational improvement effort is supported by our work with outside educational consultants.

Findings for the Improvement Plan

A comprehensive plan for providing achievement data for all students in grades 9-11 from the ACT series of tests has been approved and will be implemented this year. On October 30th, 2007, 9th graders will take a retired PLAN test, sophomores will take the PLAN test, and juniors will have the opportunity to take a retired ACT test. This system provides us with timely and useful data relative to our students’ current levels of performance and prioritizes instructional needs. In April, the required Prairie State Achievement Exam (PSAE) will be administered to all 11th graders. This assessment is used to measure students’ current progress, as well as their academic achievement in comparison to district and state results.

Documented successes of school improvement as compared to the 2006-2007 school year, that are noted in this report include:

- Enrollment increased from 1981 to 2075
- Chronic truancy rate decreased by 0.6 %
- An increase in the overall high school graduation rate of 1.3%, including 17.9% increase for students with limited English proficiency and 14.6% increase for students with disabilities
- A 3.3% increase in the percentage of students who met or exceeded the Illinois Learning Standards
- Increases in the percentage of students meeting or exceeding standards on the PSAE—1.1% increase in reading, 4.8% increase in math, and 3.1% increase in science

Goals for the Current Year

The East staff will focus on the goals listed below for improving student performance and achievement:

- *The number of 11th grade students meeting or exceeding state standards in reading and math will increase by at least 5 %.*
- *All math subgroups will reach the NCLB math benchmark for 2008.*
- *All students will increase their commitment to learning.*

In order to achieve the above goals for the current school year, the following long-range goals have also been established:

- 1) Regularly scheduled meetings of Professional Learning Communities will focus on analysis of student data and instructional improvement.
- 2) All staff will utilize the instructional tools and practices that produce increased student success in the classroom.
- 3) A pyramid of interventions that is systemic and systematic for every level of student achievement will be implemented.
- 4) Student and community voices will be used to assist teachers in designing instructional strategies and forming partnerships to increase student success.
- 5) A system that identifies best practices and initiates specific programs to address student needs will be implemented.
