Richmond Students Create Valentine's Day Cards for the Troops

Richmond Student Council members decided to get started with Valentine's Day by creating Valentine's cards to donate them to "Support our Troops," an organization that provides assistance to and promotes support for America's troops and their families.

The students were given a bag of 3 various Valentine's cards with illustrations for them to color such as hearts, animals, and sweet messages. During their student council meeting, students were prepared with coloring materials and wrote sweet messages of appreciation as well as words of encouragement, telling soldiers to enjoy their Valentine's Day and to be safe while serving our country.

This school year, the group also made Thanksgiving placemats for the senior center, Carroll Tower. In the upcoming months, the group will also celebrate Random Acts of Kindness (Paint the Town Orange) by making and sending cards to our Transportation staff, custodial staff, kitchen staff, PTO members, and other people in the community that help our students and our district.

Converting Energy on a Snowy Day

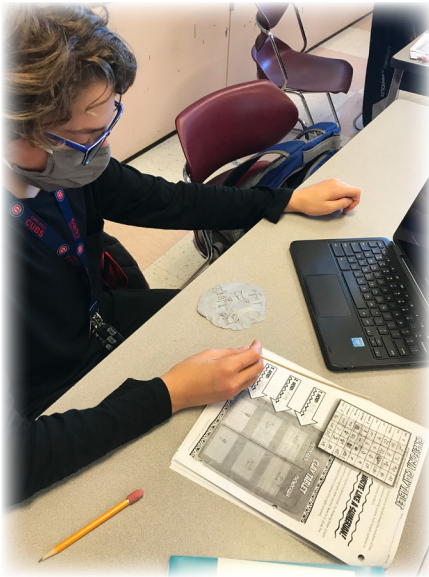

Corron 4th graders took advantage of the freshly fallen snow on January 26 to engage in a fun learning activity to better understand their Energy Conversion science unit. Mrs. Foster had students demonstrate examples of the conversion of chemical energy (from the food they ate) to mechanical energy (the energy students used to shovel snow, throw snowballs, or go sledding and skating). This activity led to great discussions and even had students talking about how chemical energy converted to mechanical, and then to sound energy (the sound of the shovel).

Wredling 6th Graders Learn to Write in Cuneiform

Wredling students in Mrs. Vogt's 6th grade class have been learning about the government of Mesopotamia. As they discussed the characteristics of a civilization, they learned about the importance of a system of writing and how ancient writing started as symbols (pictographs) and evolved into syllables (phonograms).

Then, Mrs. Vogt introduced them to cuneiform, one of the earliest writing systems recorded in history. Scribes used cuneiform to write the first laws on clay tablets and pillars, specifically Hammurabi's Code of Laws (one of the first written codes of law).

Students experienced some of the challenges ancient Mesopotamians faced through a hands-on activity creating cuneiform tablets. Students "attended" scribe school where they practiced writing out their monograms using Sumerian phonograms.

In scribe school, students viewed examples of cuneiform and drew pictographs before moving on to writing cuneiform in pencil. After completing the practice task, they received their "tablet" (Play-Doh) and a stylus (a skewer), and were tasked with inscribing objects in cuneiform, for example sun, grain, and fish.

For their final project, they inscribed their names using a website that changed their names into cuneiform. The following day, students reflected on the activity and what challenges the scribes may have encountered as they inscribed all the laws from Hammurabi. Students enjoyed scribe school and mentioned how it was easier than they expected, yet challenging enough to allow for great class discussions on how to improve their work.

Social-Emotional Resources for Families

In partnership with Riverview Counseling, District 303 has posted video resources that support the social emotional needs of families. The videos are found on the [district website here](#) and cover topics such as supporting students with remote learning, strategies for structure and consistency, suicide prevention and awareness, and parent self-care.

RANDOM ACTS MATTER wants to THANK YOU for your participation in the November 2020 Coat Drive

The Random Acts Matter Coat Drive to benefit the Kane County Court Services was a great success because of the generosity and support of the St. Charles School District's faculty, students and community families.

Random Acts Matter and its volunteers collected approximately 800 coats (new and gently used) as well as hats and gloves!

Special thanks to Coach Todd Genke and the St. Charles North Baseball team for their help with this community outreach. On that cold blustery day, the boys directed the traffic, greeted cars, and collected and sorted the donated items. Thank you St. Charles North High School for allowing Random Acts Matter to organize this community outreach in the schools' parking lot.

Due to the huge support of the community, Random Acts Matter was able to provide coats, hats, and gloves to the various Kane County Court Services, KC Child Advocacy Center, Ecker Mental Health Facility, Salvation Army, CAAN, and the Tri-City Medical Clinic.

Ecosystem Mini Museums

Fifth-grade students at Anderson Elementary began the second semester with their science unit on Matter and Energy in Ecosystems. After taking virtual tours and field trips of ecosystems around the world, students in Mrs. Weber, Mrs. Newlin, and Ms. Bolen's classes had to choose an ecosystem to further research for a final Ecosystem Mini Museum project.

In previous years, students were able to visit the STREAM Lab and use the materials available and programs such as Makey Makey and Scratch to bring their findings to life.

"With COVID-19 restrictions in place, we had to think outside the box so that students were not sharing materials," expressed Mrs. Weber.

The final activity for the lesson was modified to be a mini-museum display to showcase their learning about each unique

ecosystem. Students were encouraged to use different materials to make the posters 3D and aesthetically pleasing. With the information gathered, they recorded those facts on 5 different Flipgrid posts and printed them as QR codes.

They included:

- an introduction about their ecosystem,
- explained the biotic and abiotic factors,
- explained how energy moves through the food pyramid, and
- explained how humans impact those ecosystems and possible solutions to those issues.

Students then had an opportunity to view each other's projects, and compare their ecosystems and their findings.

District 303 Notice of Destruction of Special Education Records

The temporary special education records of former students of Community Unit School District 303, St. Charles, records are set to be destroyed. Students who graduated or transferred out of the district with a date of birth year of 1993-1994 records will be destroyed after March 1, 2021. If a parent or student has reason to believe that these records may be of continued usefulness, they are encouraged to contact the District 303, Department of Instruction, Instructional Interventions, at (331)228-6732, to obtain these records.

Special Education records may include: reports of psychological or social work evaluations, reports of multi-disciplinary planning conferences, reports of annual reviews, copies of individual educational programs, or other verified information of clear relevance to the education of the student. Copies of the Rules and Regulations to Govern District 303 Student Records are available for inspection at each school site and at the District Central Office.

The St. Charles Education Foundation Scholarship Deadline is March 10, 2021

Since 2003, the St. Charles Education Foundation annually awards scholarships to two graduating seniors at each of the two high schools, St. Charles East and St. Charles North. The monetary value of each scholarship will be a minimum of \$1000.00. To qualify, seniors are expected to further their education at a 2-year or 4-year college or university, vocational school or post high school institution of higher learning. The scholarships are a one-time non-renewable award which will be granted based on overall merit. The scholarship applications are available at St. Charles North and East High School guidance offices and <https://www.stcedfoundation.org>

Announcing the St. Charles Education Foundation Grant Application 2020-2021

"Imagination is more important than knowledge. Knowledge is limited. Imagination encircles the world."
-Albert Einstein

The St. Charles Education Foundation is pleased to announce that 22 grants were funded totaling \$29,000.00 for the 2019-2020 school year. Click here to [view the list of recipients](#).

The goal of The St. Charles Education Foundation is to provide funding that allows talented professionals to utilize their abilities to educate today's students. To facilitate this goal, the Foundation is inviting educators and students to submit proposals for consideration in the 2020-2021 school year.

There are a limited number of grants that can be funded so we are looking for the most innovative and first-time projects or programs that have the potential to expand in District 303. The Foundation typically funds projects that may not be able to be funded through conventional means.

The grant application has been modified to make it easier to apply and to keep the focus on exceptional ideas which enhance learning and teaching in our district.

6:30-8:00 PM

**Live Virtual
Presentation**

Attendees will remain anonymous
while viewing this presentation

**This presentation is for adults only
(21 years of age and over)**

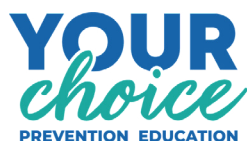

The rise in anxiety, depression, self-harm and the use of vaping devices and other substances among youth is a growing concern. Are you familiar with carts? Dabs? Box mods? If you have young people in your life, you should be. Would you be able to spot the signs of anxiety, depression or self-harm in a bedroom?

The Wake Up Call presentation, a program of Your Choice, provides practical information on current drug trends, a walk-through of a teens' bedroom with more than 50 red flags that could indicate substance abuse as well as proactive parenting strategies to keep your child substance free.

The presenters, all with lived experience, combine their personal stories, experience working with students and families, and sharing things they wish they would've known into an engaging, real and unique presentation. This presentation is a MUST SEE for parents, grandparents, teachers, community members and other adults who are influential in the lives of youth.
