

## Chromebooks

- Open up Chrome on your Chromebook and click on the **Google apps waffle** and scroll down until you see the “app” you are looking for. Selecting iReady or BrainPOP will then redirect you to that site and automatically log the student in.

## iPads

- To log into i-Ready on an iPad, please select the “**i-Ready Login App**” icon, which when selected will open up the Google/i-Ready login window.

- Use the **students district email account** to login (Student ID + @students.d303.org)  
**e.g.** 8001111@students.d303.org.
- Once logged in, select **Yes** if it prompts you to open up the app.

**\*Please note that students must always use the “i-Ready Login App” when accessing i-Ready on the iPad.**
