St. Charles East High School Student Selected to participate in Fermilab's 2019 TARGET: Science and Engineering Program

April 26, 2019 - St. Charles, IL - St. Charles East High School sophomore Emma Santos is one of 25 students to be selected to participate in Fermilab's six-week paid summer internship program.

The TARGET Program incorporates both classroom and work experiences that support the science conducted at Fermilab. Students will participate in instructional sessions focused on S.T.E.M. principles. In addition, they will work on individual and group projects and have the opportunity to formally present their work at the end of the TARGET Program.

Emma was chosen from a pool of 305 students who applied for the internship experience. She and other interns will work at Fermilab from June 24 through August 2.
