Is Your Contact Information Up-to-date?

Ensure You're Getting Timely District Alerts

This week's first snow is a great reminder to make sure the contact information you've provided the District is up-to-date. We want to ensure you're getting timely alerts on inclement weather operations and other important notifications. Please take a moment to do the following:

View Notification Preferences/Enable Text Messages

District 303 will send notifications to families through the ParentLink system by text message, phone call and email based on your settings. Parents/guardians can view and edit their contact settings through the [Home Access Center](#).

To receive timely emergency communications, we strongly encourage families to enable text notifications. For most people, this is the fastest way to receive and view important messages. Here's how:

- From the HAC main menu, select the "registration" tab to view your contact settings
- Select the "edit" button to change your contact settings
- To enable text message notifications, enter your cell phone number in the SMS/text message field
- Select the "save" button

Users can only update their child(ren) and personal contact information. You will not be able to make changes to another parent/guardian's contact information. For updates to emergency contact people, please reach out to the school directly.
