

STUDENT PARKING 2023-24

Many students have the desire to receive a parking pass to park on campus, but every year there are more parking pass requests than available parking spaces. Students wanting a parking pass need to fill out an application form – [LINK](#). However, submitting a parking pass application by any date does not guarantee a parking pass. **All applications submitted by the due date will be entered into an initial lottery to assign passes. Meeting the due date is the best chance to receive a pass.**

Applications submitted after the due date will be entered into a second lottery after Materials Pick-Up days (should any passes remain). Every year, parking passes are not claimed during Materials Pick-Up days and within the first few weeks of school may become available. Furthermore, students leave STCE throughout the school year, and some graduate in December. If parking passes become available at various points throughout the school year, families will be notified.

Seniors and Juniors enrolled in academic-related programs (ECC Education to Careers Program/Principles of Technology, CO-OP, Teaching and Learning Practicum, Internships, and BNAT or Cosmetology through Fox Valley Career Center) will be given priority for an Everyday Pass given the transportation requirements of their STCE-related academic program. All other Seniors are eligible for an everyday pass (\$200), and Juniors are eligible for either an ODD or EVEN parking pass (\$75) for the Range. The Range will be closed for one month in the fall and one month in the spring. Students will then have to make other arrangements for transportation to and from school or take the bus provided by District 303. The ODD/EVEN parking pass fee is prorated accordingly. Some years, Seniors who do not receive an Everyday parking pass may receive an ODD and EVEN pass if the demand for parking passes allows.

Given the size of our student population, not every student who desires a parking pass will be issued one. STCE administration understands that each student/family has unique needs and challenges that can be potentially assisted by the ability for a student to receive a parking pass. However, we cannot prioritize the needs of our students/families, and therefore, the best way to obtain a parking pass is to ensure your application for a parking pass is submitted by the due date – Thursday, July 13, 2023.

Sophomores are not eligible to apply for parking passes. If a sophomore is found parking on campus during the 2023-24 school year, they may become ineligible to apply for a pass junior year. Every year there are more parking pass requests from Juniors and Seniors than available parking spaces, so Sophomores are not eligible for parking passes.

In late July/early August, you will receive a confirmation email from Mr. Shawn Burke regarding parking. If a parking pass will be issued to you, a parent/student signature form will be sent to you to fill out and return on Materials Pick up days and a charge will be made to your PushCoin account. Everyday passes are \$200. ODD/EVEN passes are \$75. Once your payment has been made through PushCoin and the parent/student signature form has been turned into Mr. Burke at Materials Pick Up, you will receive your pass. Continue to watch your D303 student email for updates in August.
