

K-2 Device Information

General Information:

To support remote learning, D303 is making devices available to students in grades K-2 who need an additional device at home. Devices will be available for pick-up at your child's school according to the schedule listed below. If you feel your family has sufficient personal devices available or your child can share a D303 device with a sibling, you do not need to pick up an additional device.

Kindergarten and first grade students will receive an iPad, while second grade students will receive Chromebooks. All devices distributed by D303 are equipped with internet filtering to help keep students safe. These filters do a good job blocking students from inappropriate content. If you have any concerns about improper content being accessed on any district device, please contact D303 IT support at <https://helpdesk.d303.org/chat/> and we will address your concern.

iPads will be equipped with a selection of applications to assist with remote learning that should be familiar to many students. Chromebooks will allow students to access online services and applications similar to those used in their learning experiences at school.

All District 303 devices are password protected. Parents will receive the passwords during device pick-up. Our youngest students do not always know or remember their account passwords. Please know that help is immediately available for password resets, and other issues during business hours M-F at <https://helpdesk.d303.org/chat/>

Device Pickup Process:

Clean, disinfected devices will be distributed to families at the direction of D303 staff from a responsible socially distanced pickup point, directly inside your child's school. The following procedures are being put into place to make device pickup available in the safest possible manner.

- Devices have not been physically touched by D303 staff after being cleaned and placed in the distribution carts.
- Distribution areas are deep cleaned every evening during this process.
- Please know your child's teacher's name, and if possible, student ID number, to speed up the pickup process.
- Please observe directions on posted signs and follow guidance from D303 staff to keep safe social distancing and allow for efficient device distribution.
- School entrances and exits where pick-up takes place will be propped open to avoid unnecessary contact with door handles.
- Tape lines will indicate proper line distancing from the sidewalk into the building. PLEASE observe the taped areas when lines form.
- If you observe a line entering the building, please remain in your vehicle or stay at a safe distance until there is room.
- Pickup times are for the distribution of devices only. No access to the rest of the building for personal belongings is available.

Device Pick-up Schedule:

We are asking families to pick up devices at their child's school according to your last name and the schedule listed in the chart below. If your schedule does not allow this, you may pick up the device during any scheduled time at your child's school. To accommodate the large number of families whose children attend Davis Primary, there is an extended pick up schedule for those families.

Pick-up Day	Last Name
Monday:	A - H
Wednesday:	I - P
Thursday:	Q - Z

School	Monday	Wednesday	Thursday
Anderson	1-3 PM Front/main door # 1	1-3 PM Front/main door # 1	1-3 PM Front/main door # 1
